In accordance with policy and procedure, the City of Jasper (City) enters into an agreement with Kenneth and Amy Rowe (Owner) as a partnership for continuing / expanding approximately 2,000 feet of water line from the intersection of Highway 108 (Waleska Highway) and Upper Bethany Road to Owner's address of 2890 Upper Bethany Road, Jasper, Georgia. This partnership entails that the City's responsibility is to provide for access to the water line by way of boring beneath Highway 108 to then allow for the continuation of the aforementioned line by Owner. Said Owner's responsibility is to have a qualified individual through a private party transaction install the line in compliance with City standards.

As a benefit to both parties, it is acknowledged and agreed that this arrangement is advantageous inasmuch as it allows additional water line installation in the City's service delivery area as well as to provide water service to Owner. Due to the nature of the agreement, the intent of recouping Owner's costs associated with the installation of the water line is identified in the section of code relating to refunding of construction costs. As such, the first five persons, private business(es), holding companies, households, structures, buildings, etc. during the term of 25 years will be assessed an additional fee above that of the City's tap fee to allow Owner to recoup said expenses. On file with the City, the Owner will provide an itemized cost sheet that will identify that the first five persons on the section of line installed will pay \$5,000.00. Upon the end of the term or first five persons, whichever shall occur first, there will be no further obligations for said fee to be assessed. Additionally, the Owner acknowledges and agrees that the City, should they install additional water line beyond that which Owner install, will not be responsible for assessing fees beyond that of what is involved in the section that Owner installed.

Additionally, Owner acknowledges and agrees that the City is not responsible for any defects that may have occurred through the install and that should the installation not be in compliance with City standards, the City reserves the right to reject the water line. The City is also held harmless regarding this agreement and should a dispute arise between private parties, the City has not waived any of the sovereign rights granted by the state as a political subdivision of the State of Georgia.

200 Burnt Mountain Road  
Jasper, GA 30143

Dear Mr. Douglas:

The Georgia Department of Transportation has prepared a revised List of Roads for the City of Jasper. This revision reflects the raising of the speed limit on State Route 515 from 55 MPH to 65MPH

Upon your review and approval of the attached List of Roads, **please forward the signed original as provided with no additions or changes to the List of Roads to this office at 30 Great Valley Pkwy, White, GA 30184.** We will then forward the information to the Department of Public Safety with a recommendation that an updated Speed Detection Device Permit be issued to the City of Jasper Number 08-26-19, being the controlling document.

The City of Jasper will be responsible for installation and maintenance of signs on the off systems route. The signs shall be in accordance with the Manual on Uniform Traffic Control Devices. The Department of Transportation will be responsible for all on-system signing.

If this office may be of additional assistance, or if you would like to discuss this matter further, please contact Michael Long at 678-721-5294.

Sincerely,

A handwritten signature in blue ink that reads "Christina Barry".
